tion and provide superior dental care. It is no different in the dental field. Dr. Forester loves staying ahead of the curve when it comes to new, cutting-edge dental technology, services, and procedures.

When choosing Lifetime Smiles, you can be confident in Dr. Forester's skills, abilities, and training.

3. Focus on Comprehensive, Gentle Dentistry, and Total Wellness

Our team cares about your smile, as well as your health as a whole. We provide all of the common dental services (veneers, dental implants, etc), but we also go above and beyond to provide more than that.

We provide comprehensive dental exams, which can detect minor issues before becoming huge problems—problems that can negatively impact your health. For example, we screen our patients for oral cancer and for periodontal disease. If these two conditions are not caught early on, they can cause significant damage to your entire body (i.e. heart attack, stroke, etc).

Additionally, we examine other dental-related issues that may be causing you difficulties, including: acid reflux, grinding the teeth (bruxism), snoring, sleep apnea, diet, gum disease, high blood pressure, and much more.

With our comprehensive dentistry approach, you can be confident that you and your family are receiving top-notch care— not just quickly cleaning your teeth and rushing you out of our office.

Finally, we take the time to educate patients. We want you to have a healthy smile for a lifetime, not just in the near future.
